Allowable Subject Matter

1. Claims 60-69 and 80-89 are allowed over the prior art of record.

Applicant has claimed uniquely distinct features in the instant invention which are not found in the prior art either singularly or in combination. They are a system for use in a vehicle for receiving entertainment programs from one or more sources remote from the vehicle, comprising: a receiver for receiving, from outside the vehicle, one or more signals containing data concerning categories in which the entertainment programs are classified based on contents thereof; and a display for presenting thereon at least one category, together with a collection of one or more indicators in association with the at least one category, wherein the one or more indicators represent the one or more of the remote sources currently providing the entertainment programs receivable by the receiver, and the association is determined based on the data, thereby facilitating selection of a remote source represented by an indicator in the collection to receive an entertainment program, which is classified in the at least one category and currently provided by the remote source. These features are not found or suggested in the prior art.

The present invention is directed to a display for presenting thereon at least one category, together with a collection of one or more indicators in association with the at least one category, wherein the one or more indicators represent the one or more of the remote sources currently providing the entertainment programs receivable by the receiver, and the association is determined based on the data, thereby facilitating selection of a remote source represented by an indicator in the collection to receive an entertainment program, which is classified in the

Art Unit: 2173

at least one category and currently provided by the remote source. Each independent claim is identified the uniquely distinct features "wherein the one or more indicators represent the one or more of the remote sources currently providing the entertainment programs receivable by the receiver, and the association is determined based on the data, thereby facilitating selection of a remote source represented by an indicator in the collection to receive an entertainment program, which is classified in the at least one category and currently provided by the remote source".

The closest prior art, Schwob discloses convention a broadcasting system capable of automatically updating its database to identify received broadcasting station, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cao (Kevin) Nguyen whose telephone number is (571)272-4053. The examiner can normally be reached on 8:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John Cabeca can be reached on (571)272-4048. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
